KEY TECHNOLOGY (CHINA) LIMITED

THE SPECIAL PROFESSIONAL KEYBOARDS AND MICE EXPERT

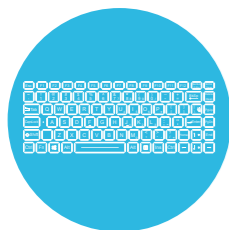

COMPANY PROFILE

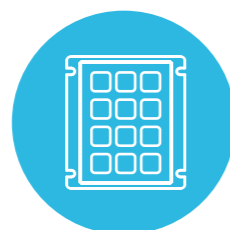

Established in 2006, Key Technology (China) Limited is an ISO9001-2015 and GJB9001C-2017 registered enterprise engaged in research, development, sale and service of all kinds of rugged keyboards/pointing devices for harsh environments covering industrial/military/marine/medical/ coal mine/oil and gas/transportation/aerospace/public access/food and beverage/vehicle etc. applications. We have excellent and experienced teams who focus on product development & design, quality control and company running. Dedicated to strict quality control and thoughtful customer service, our experienced staff are always available to provide ideal solutions to customers. Ranging from our off-the-shelf products to customized one, we can always deliver you a satisfying solution! Besides, our products have obtained many certificates/testing reports including but not limit to CE, RoHS, FCC, ESD, REACH, GJB-151A, GJB-151B, MIL-STD-461G-EMC-EMI-EMS-ESD, MIL-STD-810F, IEC60945-2002, IP67, IP68, Medical, Explosive-proof, high and low temperature testing as well as patent certificates.

PRODUCT CATEGORY

Keyboard

Keypad

Pointing Device

PATENT R&D Advantage

Our experienced R&D team are in this field for over +17 years, including electronic engineers, structural engineers, ID appearance engineers and etc. According to ISO9001-2015 and GJB9001C-2017 management systems, from product project initiation, product design, and process control, to process and fixture optimization, we strictly obey to the requirements and improve the complete procedures from beginning to end.

Product Category

IEC60945 Rugged Maritime Keyboard

Feature

1. IP65 dynamic waterproof rating
2. IEC60945-2002 certified
3. Meet with MIL-STD-461G-EMC-EMI-EMS-ESD
4. Meet with MIL-STD-810F (high and low wide temperature, shock, salt mist, vibration, fungus, humidity, low pressure, etc.)
5. Designed to meet the critical military standards in these 10 aspects: reliability, safety, maintainability, testability, supportability, environmental adaptability, stability, compatibility, consistency, and continuity.
6. Integrated trackball/touchpad/FSR hula pointing device optional
7. Adjustable backlight included to fit in dark environments
8. Built-in panel mount/flat desktop/inclined desktop/wall mount solution optional
9. Various language layouts available
10. Dot matrix/USB/PS2 interface available
11. FN+Clean combination keys to lock and disable the whole keyboard for easy cleaning
12. OS: All Windows, Linux, Unix, Max OSX, Vxworks, Android

K-TEK-M112-OTB-NV-151B

Feature

1. IPX6 rating
2. IEC60945-2002 certified
3. Meet with MIL-STD-461G-EMC-EMI-EMS-ESD
4. Meet with MIL-STD-810F (high and low wide temperature, shock, salt mist, vibration, fungus, humidity, low pressure, etc.)
5. Designed to meet the critical military standards in these 10 aspects: reliability, safety, maintainability, testability, supportability, environmental adaptability, stability, compatibility, consistency, and continuity.
6. USB/PS2 interface optional
7. Industrial level available
8. OS: All Windows, Linux, Unix, Max OSX, Vxworks, Android

Application

Vehicle, aerospace, naval, maritime, Radar, console, portable rugged laptop, UAV ground station etc.

Ruggedized Silicone Medical Keyboard and Mouse

Feature

1. IP65 fully sealed dynamic waterproof dust proof keyboard
2. Built-in panel mount/desktop solution available
3. Various language layouts, white/black color available
4. USB/PS2 interface, wireless version optional
5. Withstand alcohol, disinfectants and other chemicals
6. **FN+Clean** combination keys to lock and disable the whole keyboard for easy cleaning

K-TEK-M399TP-KP-FN-DT

Application

Medical kiosk, medicine and pharmaceutical, labs, dental, clinics, hospitals, ultrasound equipment, food and beverage, and other industrial applications.

Product Category

Fully Sealed Waterproof Oil proof Membrane Keyboard

Feature

1. IP65 fully sealed dynamic waterproof dust proof oil proof keyboard
2. Built-in panel mount/desktop solution available
3. Ease of customized language layouts, white/black color available
4. USB/PS2 interface
5. Withstand alcohol, disinfectants and other chemicals
6. CE/FCC/RoHS/IEC/EN60601-1-2
7. **FN+Lock** combination keys to lock and disable the whole keyboard for easy cleaning

K-TEK-D410-OTB-KP-FN-SW

Application

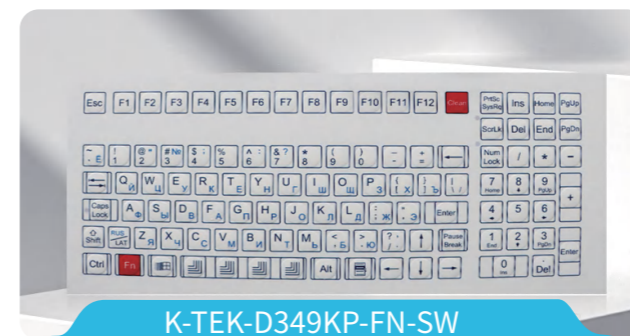

Medical kiosk, medicine and pharmaceutical, labs, dental, clinics, hospitals, Dialysis center, food processing, beverage and other industrial applications.

Product Category

Explosive-proof Waterproof Stainless Steel Industrial Keyboard

Feature

1. IP67 fully sealed waterproof vandal proof keyboard
2. Intrinsically safe explosion-proof
3. Built-in panel mount/desktop version available
4. Resistive touchpad optional, which is quite ideal for coal and mine or application with users who wear gloves
5. USB wired or 2.4Ghz wireless version available
6. Integrated with FSR hula pointing device optional
7. Integrated with Hall Joystick optional without needing to remove the gloves
8. FN+Clean combination keys to lock and disable the whole keyboard for easy cleaning

K-TEK-A361TP-FN-DT-DWP

Application

Industrial, coal and mine, bank kiosk and self service terminal, public access, explosion-proof automation, oil and gas etc.
